

PRAVEEN KUMAR

Mobile Application Developer (React Native / Android)

Ghaziabad, UP, India | +91 7830469154 | praveenkumarlodhi001@gmail.com

[linkedin.com/in/praveen-kumar-005489367](https://www.linkedin.com/in/praveen-kumar-005489367) | github.com/praveenkumarlodhi001-create | [Play Store: TaporiGPT \(Roastify\)](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

4th-year B.Tech (CSE) student and mobile-first software developer with hands-on, end-to-end experience shipping a cross-platform React Native application to the Google Play Store. Comfortable across the mobile stack — UI, state management, Firebase backend integration, and release/build configuration. NPTEL Elite-certified in Core Java (IIT Kharagpur) and Machine Learning (IIT Madras). Builds solo, ships working software, and enjoys turning ideas into functioning prototypes quickly.

TECHNICAL SKILLS

Languages: Java (Core, OOP, Collections), JavaScript (ES6+), Python, C/C++, SQL

Mobile Development: React Native (CLI & Expo), Android app release/bundle configuration, cross-platform UI, performance tuning

Backend & Storage: Firebase (Authentication, Cloud Firestore), Node.js, Express.js, REST APIs, local-first/on-device storage

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Multithreading & Concurrency, Operating Systems, Computer Networks

Applied ML: Supervised & Unsupervised Learning fundamentals (NPTEL, IIT Madras)

Tools & Platforms: Git, GitHub, Google Play Console, Android Studio, Postman, Linux/Bash

Coding Profiles: [LeetCode](#) | [HackerRank](#) | [GeeksforGeeks](#) — HackerRank 5★ Gold (Java, 25+ problems solved), 4★ (Python)

PROJECTS (SOLO BUILDS)

Roastify (TaporiGPT) — AI Persona Mobile Application *React Native · Firebase Auth · Cloud Firestore* | *Live on Google Play Store (Open Testing)* | *Jul 2026 – Present*

- Independently architected the app, generated release keystores, and deployed it end-to-end to the Google Play Store via Google Play Console.
- Engineered client-side routing logic for five distinct AI personas (Tapori, Roast, Gamer, Love, Shayar) with low-latency response handling.
- Profiled and optimized React Native component lifecycles to sustain smooth 60 FPS UI animation on entry-level Android devices.

V-KhataBook — Offline Voice-First Merchant Ledger *React Native · Speech-to-Text · Local-First Storage* | *Working Prototype / In Active Development*

- Building an accessibility-first ledger app that lets local shopkeepers log transactions by speaking in Hindi/Hinglish instead of typing.
- Integrating speech-to-text parsing to extract transaction details (amount, party name, credit/debit) from natural voice input.
- Designing a zero-cloud, local-first storage model so all customer balances and transaction data stay entirely on-device.

ZeroVault — Personal Finance & Local Price Comparator *React Native · Firebase Auth · Custom Search/Sort Algorithms* | *In Active Development*

- Building a personal finance app combining expense tracking with a hyper-local price comparison engine across nearby stores.
- Implementing custom search and sorting logic (hash-map lookups, quicksort-based ranking) to filter and rank store-wise item prices.
- Designing expense categorization (Food, Bills, Travel) with monthly spending summaries; using Firebase Auth to protect user data.

Mastishk — Sci-Fi Systems Simulator & Interactive Desktop Dashboard *Python · Tkinter · Multithreading* | *Personal Concept Project*

- Built a cyberpunk-themed Python/Tkinter desktop simulator (fictional concept, not real biomedical telemetry) using background worker threads, an event-driven safety-abort module, and JSON session logging, packaged as a standalone Windows .exe with PyInstaller.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering *Dr. A.P.J. Abdul Kalam Technical University (AKTU)* | *Expected Graduation: 2027*

- CGPA: 7.76/10 (through 3rd year, 6 semesters)
- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming (Java/C++), Database Management Systems, Operating Systems, Computer Networks.

CERTIFICATIONS

- Programming in Java (Elite) — NPTEL, IIT Kharagpur | Jan–Apr 2025
- Introduction to Machine Learning (Elite) — NPTEL, IIT Madras | Jul–Oct 2025
- Machine Learning with AI (Grade A, Top Performer) — IITM Pravartak Technologies Foundation & NSDC/Skill India
